

Energy

Collective Soul

Mother and child
I'm such a man for a short while
And Promises be
The world just spins faster than me And All of your friends I hear are whispering
I think you left me for the government
And all of your friends I hope are listening
I wish you'd stop wasting all my energy Beauty or beast Who's my character to be
I'm now covering All the makeup that makes me And All of your friends are now whispering
I think you left me for the government
And all of your friends I hope are listening
I wish you'd stop sucking all my energy And all of your friends are still whispering
I think you left me for the government
And all of your friends I hope are listening
I wish you'd stop wasting all my energy And All of your friends are now whispering
I think you left me for the government
And all of your friends I hope are listening
I wish you'd stop sucking all my energy And All of your friends are still whispering
I think you left me for the government
And all of your friends I hope are listening
I wish you'd stop wasting all my energy Energy energy energy energy oh
I wish you'd stop wasting all my energy
Energy energy energy energy oh
I wish you'd stop wasting all my energy
