

Rooftops

Lostprophets

When our time is up
When our lives are done
Will we say, we've had our fun Will we make a mark this time
Will we always say we tried We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out All the love I've met
I have no regrets
If it all ends now, I'm sad Will we make a mark this time
Will we always say we tried We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out Standing on the rooftops
Wait until the bombs drop
This is all we got now
Scream until your heart stops Never gonna regret
Watching every sunset
We'll, listen to your heartbeat
All the love that we found Standing on the rooftops
Wait until the bombs drop
This is all we got now
Scream until your heart stops Never gonna regret
Watching every sunset
We'll, listen to your heartbeat
All the love that we found Scream your heart out
Scream your heart out
Scream your heart out
Scream your Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out Standing on the rooftops
Everybody scream your heart out
This is all we got now

Everybody scream your
