

# With My Eyes Closed

## The Raveonettes

I close my eyes  
To hurt you, to live you  
I never told you  
That I could stay It was never meant to be  
For me Everyone surely will tell you  
That I will need you  
But I don't believe you 'Cause I've never had it  
The way I'm supposed to Believe me when I say It was never meant to be  
For me Everyone surely will tell you  
That I will need you  
But I don't believe you I close my eyes  
To hurt you, to live you  
I've never told you  
That I could stay It was never meant to be  
For me
