

# Inseparable

## Jonas Brothers

Take my hand tonight, we can run so far  
We can change the world to anything you want  
We can talk for hours, just staring at the stars  
They shine down to show us You know when the sun forgets to shine  
I'll be there to hold you through the night  
We'll be runnin' so fast, we can fly tonight And even when we're miles and miles apart  
You're still holdin' all of my heart  
I promise it will never be dark  
I know, we're inseparable We could run forever if you wanted to  
And I would not get tired because I'd be with you  
I keep singing this song until the very end  
We have done all these things You know when the sun forgets to shine  
I'll be there to hold you through the night  
We'll be runnin' so fast, we can fly tonight And even when we're miles and miles apart  
You'll still be holdin' all of my heart  
I promise it will never be dark  
I know, we're inseparable And I don't give it all, never let you fall  
'Cuz you know, we're inseparable  
And I would give it all, just to show you I'm in love  
'Cuz you know we're inseparable You know when the sun forgets to shine  
I'll be there to hold you through the night  
We'll be runnin' so fast, we can fly tonight And even when we're miles and miles apart  
You'll still be holdin' all of my heart  
I promise it will never be dark  
I know, we're inseparable
