Willow Pattern

Dolores O'riordan

Dreaming of the willow pattern
A phase I'm going through
Dreaming of the willow pattern
There?s something I should do
I?d never see the world without you
You opened up my eyes
I?d never see the world without you
And now I realise
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
You should never take a thing for granted
You only miss it when it?s gone
And it?s stupid to be holding grudges
Because we only got so long
So long [x7]
I?m dreaming of the willow pattern
She kept it in her room
An oriental china set
A gift I would assume
She told me how you loved her so much
That everybody died
Another universal theme
Don?t hold it all inside

Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
You should never take a thing for granted

You only miss it when it?s gone
And it?s stupid to be holding grudges
Because we only got so long
So long [x7]
I affiliate with you [x6]
I know we?d all have died
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
Never turn around
Never transit / chance it
Never play dead
Don't ever walk backwards
You should never take a thing for granted
You only miss it when it?s gone
And it?s stupid to be holding grudges
Because we only got so long
Laaauuuh...
