Too Young To Know

Ufo

Well, I've stuck out in your street
And I'm lookin' for some kind of halo
When somebody says to me, hey boy
She's too young to no no
Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll
Met you outside school
When sure no one was lookin'
And your teacher looks at me
All his envy growin'
Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll
I said, take it easy baby
You sure know what's showin'
And I can't help myself
Without your friends all knowin'
Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll
Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll
You got a long, long way to go
