[System of a Down](#)

I will never feed off
The evergreen luster of your heart
All because we all live
In the valley of the wallsWhen we speak
We can peak from the windows
Of their mouths to see the land
The women chant as they fly up to the sunYou never think you know, why
Know, you never think you know, why
Know, ever think you know, why
Know, know, knowBooks all say different things
While people flap their yellow wings
Trying to soar by being a whore of life
And almost everythingThe sheep that ran off from the herd
May be dead but now's a bird
Able to fly able to die
Able to break your cursed earthYou never think you know, why
Know, you never think you know, why
Know, ever think you know why
KnowOn the other side, the other side, other side
Do you ever try to fly, do you ever try to fly?
Have you ever wanted to die
You ever want to die?Don't ever try to fly, don't ever try to fly
Don't ever try to fly
Unless you leave your body on the other side
Never try to die, you ever try to die.Know, you never think you know, why
Know, you never think you know, why
Know, you never think you know, why
Know, ever think you know, why
