

Invasion

George

[chorus]It's an invasion
Cause we used to be two worlds apart
Then you came and broke down my plots
Such an invasion
It's an invasion
You came here
And you changed things
My hearts stops
And my home field
You took over
And I gave in
You invaded and redecorated
[hook]And my whole world revolves around you
It's like I'm abducted
What can I do

[chorus]A whole new perspective
I've been a part of
Your collective
Now I see things so different
I'm suspended and uplifted
What I used to be is no longer
I'm being rebuilt stronger
[hook][chorus]You're changing me from the inside out
I can't even recognize myself
You're taking control of my mind
And I like it
I have no choice
[chorus 2x]
