## Makin' Me Fall In Love Again

## **Kellie Pickler**

People will tell you that this kind of love will fade

That being in love like this is only a phase

But baby after all this time ain't nothin' changed

All you gotta do is look at me that wayAnd there you go makin' me fall in love again There you go makin' me fall in love againOh, and I gotta tell you there's nothin' better

You and me together, workin' on forever

Everyday with you is always somethin' new

You only gotta be yourself

And there you go makin' me fall in love againBaby sometimes you can say the craziest things

I love how you don't care what nobody thinks

You're highly original, totally untypical, never change

All I gotta do is look at your smiling faceThere you go makin' me fall in love again There you go makin' me fall in love againOh, and I gotta tell you there's nothin' better

You and me together, workin' on forever

Everyday with you is always somethin' new

Only gotta be yourself

And there you go makin' me fall in love againYou're my sunshine, you're my rain Sure feels good to know you feel the sameI gotta tell you there's nothin' better

You and me together, workin' on forever

Everyday with you is always somethin' new

Only gotta be yourself

And there you go makin' me fall in love againThere you go makin' me fall in love again

There you go makin' me fall in love again

There you go, there you go

(Fall in love again) Makin' me fall in love again

(There you go, there you go)

Makin' me fall in love again

(There you go, there you go)

Makin' me fall in love again

(There you go, there you go)

Makin' me fall in love again
