Who Dat

Adam Kanyama

Who dat? Who dat?
I wanna know right nowHow would you like it if I told you I had a new chick?
And didn't need you no more 'cause you where sick with it?
What if I was all in her crib and she was lovin' this ***
'Cause I didn't want you to know?You ain't even on the low with it
You're actin' like you let a *** hit it
Plus, you ain't got no job
So how you them get fits and that whip?
Just tell me who dat *** is?Who, who dat with they arms all up around you?
And who dat gettin' and hittin' it like I use to?
Who dat spendin' all they chips?
Who, who dat bought you all that ***?Tell me where did he come from and why he all on my ***?
How could you let him come in and get what I had?
I really don't wanna know but, girl, I gots to
Tell me who's dat ***, baby who?Would you like it if I went and got a floss piece?
And let her stay at my crib 'cause she would cook for me?
What if I gave her my last name, she was the one that I claimed?
And I didn't tell you 'cause I didn't want you to knowYou ain't even on the low with it
You're actin' like you let a *** hit it
Plus, you ain't got no job
So how you get them fits and that whip?
Just tell me who dat ***Who, who dat with they arms all up around you?
And who dat gettin' and hittin' it like I use to?
Who dat spendin' all they chips?
Who, who dat bought you all that ***?Where did he come from and why he all on my ***
How could you let him come in and get what I had?
I really don't wanna know but, girl, I gots to
Tell me who's dat ***, baby who?It's killin' me knowin' you ain't mine
You're givin' him all my bump and grind
I wish I had a chance to make it right
Just one, one more timeIt's killin' me to know that you're gone
What a *** got to do to get you on?
I just can't take it, I just can't fake itWho, who dat with they arms all up around you?
And who dat gettin' and hittin' it like I use to?
Who dat spendin' all they chips?
Who, who dat bought you all that ***?Where did he come from and why he all on my ***?
How could you let him come in and get what I had?
I really don't wanna know but, girl, I gots to
Tell me who's dat ***, babyWho dat takin' care of you?

Tell me, girl, tell me who dat
Who dat makin' love to you?
Tell me, lemme hear about who dat
Girl, tell me who dat? Who dat ***?Who dat takin' care of you?
Tell me, girl, tell me *** who dat
Who dat makin' love to you?
Lemme hear about who dat
Just tell me who dat, who dat?Who, who dat with they arms all up around you?
And who dat gettin' and hittin' it like I use to?
