

# All Nighter

## Angelika Vee

Angelika Vee - All Nighter

I hold on as we both crash into midnight  
When we getting close it's like were running a red light  
Were living life outside the lines  
Dangerous, no warning signs  
But we've got all the time to lose our mind

While the night is young tell me you want me  
While the night is young tell me I'm all you care about  
Take me all around  
Let your eyes hump me  
When I'm with you I'm on a higher ground

You are my all nighter  
Don't let go 'till we feel the love  
My all nighter  
Need you more than the stars above  
I'll give you everything  
My arms will make you hold an all nighter  
Don't let go 'till we feel the love

Feel the love 7x

You and me it's like we could be forever  
Right on the edge  
?????Â together

We're living life outside the lines  
Dangerous, no warning signs  
But we've got all the time to lose our mind

While the night is young tell me you want me  
While the night is young tell me I'm all you care about  
Take me all around  
Let your eyes hump me  
When im with you I'm on a higher ground

You are my all nighter

Don't let go till we feel the love  
My all nighter  
Need you more than the stars above  
I'll give you everything  
My arms will make you hold an all nighter  
Don't let go 'till we feel the love

Feel the love 13x

Let me give you everything you want  
I'll be yours until the morning ahh

You are my all nighter  
Don't let go till you feel the love  
My all nighter  
Need you more than the stars above  
I'll give you everything  
My arms will make you hold an all nighter  
Don't let go till we feel the love

Feel the love 10x

All nighter
