It's Like That

Inspectah Deck

Yeah, this that brand new rebel I.N.S
Back on the set, this shit is off the dial
Shaolin style, better hold on to somethingYo, S.I.N.Y. and what, hit 'em high
Hit 'em low, head or gut, yes, us, Lexus
And next trucks, flesh plush, land plus extras
Cess, dust, whatever get you messed upTest us, get crushed, next up
Better luck, we takin' off with jet thrust
Under pressure, they can't take the head rush
Talk to me, go and take the walk through meOr yours truly, will screw you like a tour groupie
War duty, after I'ma call Suzy, tall cutie
She'll do me like a porn movie
I burn thousand degrees, nothin' match meYou think you out of my league, now how can that be?
Son, you follow my lead, playin' the back seat
Y'all ride dicks like a taxi, it's like that
Here we goI roll fat, holdin' a stash
(It's like that)
Home girl, blowin' my jack
(Like that)We boys in the mist of the noise
(It's like that)
We big boys whippin' them toys
(Like that)We up late, runnin' from Jake
(Like that)
And still got money to make
(It's like that)From now until we finish the game
(Like that)
The world gonna cherish the name
(It's like that)Downtown, blowin' my sound, blew out your Alpines
Feel me, I did it for dough, this ain't about rhymes
Cash on delivery, not leavin' without mines
Face tried to powder my shine, it's about timeTo politic, poppin' the clip, bust off the hot shit
Holler this, monstrous hit, and stop ya gossip
I rep, what you expect, I took a set back
Crept back, nursin' my wounds, lookin' for get backForced to bring the pain, make 'em say my name
Rings have changed, shinin' like I'm Ving Rhames
Or King James, hustlin', I sling game
Sting lames, this money makin' things changeI bless heads, push past the full macs
Left for dead, raised by the wolf packs
Black hoods, leathers with the wool hats
Draw blood, don't even pull gats, it's like thatAiyo, y'all better kick your shoes off

And come on inI roll fat, holdin' a stash
(It's like that)
Home girl, blowin' my jack
(Like that)We boys in the mist of the noise
(It's like that)
We big boys whippin' them toys
(Like that)We up late, runnin' from Jake
(Like that)
And still got money to make
(It's like that)From now until we finish the game
(Like that)
The world gonna cherish the name
(It's like that)Aiyo, this is all for my metro card one dollar cab niggaz
Niggaz who walk here and all the ladies
Who stood on line in the rain with the bouncers
Who let the thugs slide, come on, come onThe streets watch, y'all gon get ya teeth knocked
The heats hot, bustin' til the beef stop
Preach not, our goal is to reach the top
Knees drop, I light it up and clean shopBuilt with better design, clever mind
Verbal Tech nine, light years, ahead of my time
And I, walk with, criminals who talk shit
We talk business, the blocks is our officeMany have come, few that could walk this
Roam too far, catch static like a cordless
I'm off this, pimpin' a broad, beyond gorgeous
Gettin' lost, dippin' in twin Porsche's, it's like that
