

# It's Like That

## Inspectah Deck

Yeah, this that brand new rebel I.N.S  
Back on the set, this shit is off the dial  
Shaolin style, better hold on to somethingYo, S.I.N.Y. and what, hit 'em high  
Hit 'em low, head or gut, yes, us, Lexus  
And next trucks, flesh plush, land plus extras  
Cess, dust, whatever get you messed upTest us, get crushed, next up  
Better luck, we takin' off with jet thrust  
Under pressure, they can't take the head rush  
Talk to me, go and take the walk through meOr yours truly, will screw you like a tour groupie  
War duty, after I'ma call Suzy, tall cutie  
She'll do me like a porn movie  
I burn thousand degrees, nothin' match meYou think you out of my league, now how can that be?  
Son, you follow my lead, playin' the back seat  
Y'all ride dicks like a taxi, it's like that  
Here we goI roll fat, holdin' a stash  
(It's like that)  
Home girl, blowin' my jack  
(Like that)We boys in the mist of the noise  
(It's like that)  
We big boys whippin' them toys  
(Like that)We up late, runnin' from Jake  
(Like that)  
And still got money to make  
(It's like that)From now until we finish the game  
(Like that)  
The world gonna cherish the name  
(It's like that)Downtown, blowin' my sound, blew out your Alpines  
Feel me, I did it for dough, this ain't about rhymes  
Cash on delivery, not leavin' without mines  
Face tried to powder my shine, it's about timeTo politic, poppin' the clip, bust off the hot shit  
Holler this, monstrous hit, and stop ya gossip  
I rep, what you expect, I took a set back  
Crept back, nursin' my wounds, lookin' for get backForced to bring the pain, make 'em say my name  
Rings have changed, shinin' like I'm Ving Rhames  
Or King James, hustlin', I sling game  
Sting lames, this money makin' things changeI bless heads, push past the full macs  
Left for dead, raised by the wolf packs  
Black hoods, leathers with the wool hats  
Draw blood, don't even pull gats, it's like thatAiyo, y'all better kick your shoes off

And come on in I roll fat, holdin' a stash  
(It's like that)  
Home girl, blowin' my jack  
(Like that) We boys in the mist of the noise  
(It's like that)  
We big boys whippin' them toys  
(Like that) We up late, runnin' from Jake  
(Like that)  
And still got money to make  
(It's like that) From now until we finish the game  
(Like that)  
The world gonna cherish the name  
(It's like that) Aiyo, this is all for my metro card one dollar cab niggaz  
Niggaz who walk here and all the ladies  
Who stood on line in the rain with the bouncers  
Who let the thugs slide, come on, come on The streets watch, y'all gon get ya teeth knocked  
The heats hot, bustin' til the beef stop  
Preach not, our goal is to reach the top  
Knees drop, I light it up and clean shop Built with better design, clever mind  
Verbal Tech nine, light years, ahead of my time  
And I, walk with, criminals who talk shit  
We talk business, the blocks is our office Many have come, few that could walk this  
Roam too far, catch static like a cordless  
I'm off this, pimpin' a broad, beyond gorgeous  
Gettin' lost, dippin' in twin Porsche's, it's like that
