Stay While The Night Is Young

Savoy Brown

Don't worry 'bout the morning
Because the day might never come
Don't worry 'bout the future
Just stay while the night is youngDon't pretend that it's your first time
Don't pretend that it's no fun
Don't tell me 'bout your mother
Just stay while the night is youngIt's so easy to relax if you try
Please don't think about the time going by
You can tell me 'bout the things on your mind
Just lie back and unwindJust experience the moment
Instead of thinking what's to come
Can't have the fall before the summer
So stay while the night is young
