

# Assassin

## Au/Ra

Theories I know you got your theories  
I know you got this feeling  
Everyone's out to get you Faceless enemies always faceless  
Somehow you're always blameless  
But that don't make you bulletproof You hear whispers when we're just talkin'  
See pointing fingers  
When we touch  
When we touch  
You hear footsteps when no one's comin'  
But you keep runnin' there's no use runnin' You know ya your own Assassin  
You don't need no help with that  
It's your back that you been stabbing  
When you gonna understand  
You know ya your own Assassin  
You don't need no help with that  
You know ya your own Assassin  
You know ya your own Assassin When did when did you start pretending  
You don't know why it ended  
You think the fault is all mine  
Mirror you never checked the mirror  
Or you would a seen the killer  
Staring right back with your eyes You hear whispers when we're just talkin'  
See pointing fingers  
When we touch When we touch  
You hear footsteps when no one's comin'  
But you keep runnin' there's no use runnin'  
You know ya your own Assassin  
You don't need no help with that  
It's your back that you been stabbing  
When you gonna understand You know ya your own Assassin  
You don't need no help with that  
You know ya your own Assassin  
You know ya your own Assassin You know ya your own Assassin  
You know ya your own Assassin  
You know ya your own Assassin  
You know ya your own Assassin  
You know ya your own Assassin You know ya your own Assassin  
You don't need no help with that  
It's your back that you been stabbing

When you gonna understand You know ya your own Assassin  
You don't need no help with that  
You know ya your own Assassin  
You know ya your own Assassin
