Inhale

Big Wreck

Cities crumble into forests
The black tops crack and float away
Change your mind and inhale
And every now and then it's broken
We'll fix it all up in the end
Change your mind and inhale
We all want to get away
And walk that country mile
If we're all gonna fade away
Let's go out in style
Change your mind and inhale
Change your mind and inhale
Of all the manufactured meat consumed
Under most human needs
We're overdue
And all the pretty folks are plastic
And all the lines are drawn so drastic
Like airplane glue
We all want to get away
And walk that country mile
If we're all going to fade away
Lets go out in style

You see
You're blind
You'll see
You're blind
Can't you see
You're blind
Can you see
You're blind
We all want to get away
And leave it all for awhile
If we're all gonna fade away
Lets go out in style
We all want to get away
And walk that country mile
And if were all gonna fade away
Lets go out in style

Change your mind and inhale
Change your mind and inhale
