

Perfect Proposal

Perfect Couples

This is for my baby Will you marry me?

(Will you?)

By your side I'll be

(Pretty lady)

Will you marry me?

(Will you?)

By your side I'll be I think it's time to be a host to my baby

I think it's time make a toast to my baby

I think it's time to just propose to my lady

(Will you?)

Will you marry me? I think it's time to be a host to my baby

I think it's time make a toast to my baby

I think it's time to just propose to my lady

(Will you?)

Will you marry me? You're truly the best, a blessing, the greatest girl I know

You made my life worth living, baby and it shows

I want to have you closer to me, to feel happy home

I want to promise that I'll never leave you alone

For one thing I'm really sure for you my love has no end

And nothing in this world can separate us, so until then I think it's time to be a host to my baby

I think it's time make a toast to my baby

I think it's time to just propose to my lady

(Will you?)

Will you marry me? I think it's time to be a host to my baby

I think it's time make a toast to my baby

I think it's time to just propose to my lady

(Will you?)

Will you marry me? Not a day goes by that I don't think of you

Sitting here contemplating will my dreams come true

No one is perfect in life, but you're so perfect for me

I can't describe how your love sets me free

My life won't be okay until you're by my side

Without you I'd be empty, so be my bride I think it's time to be a host to my baby

I think it's time make a toast to my baby

I think it's time to just propose to my lady

(Will you?)

Will you marry me? I think it's time to be a host to my baby

I think it's time make a toast to my baby

I think it's time to just propose to my lady

(Will you?)
Will you marry me? Will you marry me?
(Will you?)
By your side I'll be
(Pretty lady)

I think it's time to just propose to my lady
(Will you?)
