

Easier Said

Sunflower Bean

You try hard to see what I am
On the outside
Give me one more chance to see that
I'm in the right mind Act so tough
Make it cool
Don't be afraid
To see it through
And i'm not scared
To take the blame
It's not your fault
And that's okay Easier said than done
I heard you right the first time
Easier said than done
I heard you right the first time Trying to ride by your cabin
It's in my head
Should have just stayed home when i'd rather
Be alone instead You're getting old
So act your age
It isn't fun to make the same mistakes
So give it up
It's getting late
Make those moves
I'm not afraid Easier said than done
I heard you right the first time
Easier said than done
I heard you right the first time Easier said than done
I heard you right the first time
Easier said than done
I heard you right the first time
