Keep Me In Mind

Dionne Warwick

If you need someone to lower the light
Then you want someone to hold you real tight
Someone who hold you and do it upright
Baby, keep me in mind
If you feel lonely, long for a kiss
Then you want someone who'll bring you some place
Someone who kiss you, never ever resist
Honey, keep me in mind
Give me a hard knock on my door
Send me a telegram
Yeah, down the hall, beat on the floor
I'll come running, come wherever I am
If you need someone to whom you can cling
Then you'll want someone who'll lead in everything
Someone who love you, if you will buy that ring
Baby, just keep me in mind
I am telling you
If you need someone to whom you can cling
Then you'll want someone who'll lead in everything
Someone who love you, but you gotta buy that ring
Someone who love you, but you have to buy that ring
Oh, that twelve carats, blue, white and platinum
Baby, baby, keep me in mind
