

Chevy Marigold

Boston Spaceships

That's the woman
That's the woman
That's how hard and long may burn it down
That's the reason I love it so much
Just believe me she's much more than most
A lovely girl, a tipsy girl at night
That's the woman
That's the woman
Past the reasons I'm still not over her
Past the clover surrounds my house
Past the angels that count my sins yeah every sin and every spoon to win
That's the woman
That's the woman
Been through so much
Through so much been
One more pull up and never again
It's taken me so long it's taken me so long
I took the wrong track I'll never go back I'll never go back
I'll always hold onto the woman
That's the woman
