

# Baby Drugs

## Tristen

I will pick your clothes up in the morning  
I will put the coffee by the bed  
Baby don't you want me to bring you those drugs  
Baby don't you want me to bring you those drugs To every pull there is a pusher  
To get you right back where you started from  
I was only wanting to show you my love  
I was only wanting to show you my love I will never falter, I will never fear  
For I've seen the demons love can conquer disappear I know you only do it when you're lonely  
And when I'm not around you just give up Baby don't you want me to bring you those drugs  
Baby don't you want me to bring you those drugs I will never falter, I will never fear  
For I've seen the demons love can conquer disappear  
I will never falter, I will never fear  
For I've seen the demons love can conquer disappear
