Show Me Love 2K12

Sean Finn

Ohhh yeah yeah yeah You got to show me love Heart break prophecies I've had more than my chance I'm tired of givin my love And can't take nowhere, nowhere What I need is somebody who really cares I really need a lover, A lover that wants to be there It feel so lone Since I touched the..hand I can't put my love on the lie That I'll hope you'll understand So baby if you want me You got to show me love Words are so easy to say You got to show me love

Heart break prophecies
I've had more than my chance
I'm tired of givin my love
And can't take nowhere, nowhere
What I need is somebody who really cares
I really need a lover,
A lover that wants to be there
So baby if you want me
You got to show me love
Words are so easy to say
You got to show me love

Love, love love love
