

# Easy Tiger

## Depeche Mode

Leader board, who's keeping score?  
you've got it all and you want more  
so put your money where your mouth is  
money where your mouth is

Pretty boy, who's keeping score?  
you've got it all and you want more  
When I said goodbye to you  
I didn't think that we'd make it through  
put your money where your mouth is  
money where your mouth is

When I open up to you  
you only tell me that you like the view  
do do do...

do you know where to go  
in the event of an emergency?  
do do do...

you know where to go  
in the event of an emergency?  
eloquent and self assured  
an artist's grasp of insecure  
you put your money where your mouth is  
money where your mouth is  
I'm getting bored, I'm getting bored  
of talking straight into the wall

when I said goodbye to you  
I didn't think that we'd make it through  
put your money where your mouth is  
money where your mouth is  
when I open up to you  
you only tell me that you like the view  
do do do...

do you know where to go  
in the event of an emergency?  
do do do...

do you know where to go  
in the event of an emergency?  
you're so disgusting  
you're my hero

you look just like trouble  
you're my hero  
do do do...  
do you know where to go?  
so dance the dance we used to dance  
when you cared less  
about the things  
that don't matter at all to anyone  
that I'd open my door to
