

# Forward As One

## General Public

Duck and cover in the Tower of Babel  
Train your children to sit under tables  
A warm rain but a chill in the air  
Can't they tell that there's people down there? Forward as one  
Not marching as to war  
Forward as one  
Not marching as to war Forward as one, forward as one  
Forward as one  
Not marching as to war I have a father and he fought in the jungle  
He lost a brother, so I lost an uncle  
Life's a gas, hah, life's a scream  
In the army, navy, air-force, marines Forward as one  
Not marching as to war  
Forward as one  
Not marching as to war Hear the officer, "Hup two, three"  
Forward as one forward as one  
Forward as one  
Not marching as to war Either you like it or you don't  
But somebodies pushing, stabbing you down  
Either you like it or you don't  
But somebodies pushing, stabbing you down All around you under curfew  
People see but minds are shattered  
Hypnotized and disillusioned  
Watch the times now, more confusion On the streets there's escalation  
Stop, think, what could happen?  
Turn around but keep your mind on  
What could happen, pure destruction Either you like it or you don't  
But somebodies pushing, stabbing you down  
Either you like it or you don't  
But somebodies pushing, stabbing you down Law and order, natural order  
Obviously out of order  
What's to come of my generation? Give the thought some huh, penetration  
On the streets there's escalation  
Conscription soon take over  
Join the army be a soldier  
What's the fight for, law and order? Either you like it or you don't  
But somebodies pushing, stabbing you down  
Either you like it or you don't  
But somebodies pushing, stabbing you down Duck and cover in the Tower of Babel

Train your children to sit under tables  
A warm rain but a chill in the air  
Can't they tell that there's people down there? Just like my father who fought in the jungle  
He lost a brother, so I lost an uncle  
Life's a gas, arrgh, life's a scream  
In the army, navy, air-force, marines Forward as one  
Not marching as to war  
forward as one  
Not marching as to war Hear the officer, "Hup two, three"  
Forward as one forward as one  
Forward as one  
Not marching as to war
