Wonder

Brooke Hyland

I wanted it all, wanted what I could not controlI just cannot control it all Levelled it off to a place where I could feel alive and I'm not weighed down at all Learning a lot, learning that I've just gotta let go I cannot carry it all, It's not who I was Taking me back to this place Where I loved when I was just a boy Don't you wanna just remember Who you are? I wanna be back in our summer Do you remember? Come with me No room for thunder No going under I wanna be, free, breathe Dream About our summer I'll always wonder

> Yeah we wandered around Swimming at night under the stars and no-one there to bring us down We'll never be down Now I know that when I think back All this stuff's a state of mind Don't you wanna just remember Who you are? I wanna be back in our summer Do you remember? Come with me No room for thunder Not going under I wanna be, as good as it was It wasn't enough, I wanted it all I wanted too much, I'll never forget About our summer I'll always wonder about our summer.
