

# Ghosts

## Dirty Vegas

All I ever wanted was to feel the way you'd feel  
All I ever wanted was a chance to make it real  
I'm in love with you and I can pull it through  
All I ever wanted is a place out by the sun  
To watch the world go by and take each day as it comes  
All I ever wanted was a chance to catch my breath  
To see the world go by and lay my ghosts to rest  
Give me a chance to catch my breath  
So I can lay my ghosts to rest  
So ask me tomorrow what I thought of yesterday  
There's so many things that I could not explain  
I'm in love with you and I can pull it through  
All I ever wanted is a place out by the sun  
To watch the world go by and take each day as it comes  
All I ever wanted was a chance to catch my breath  
To see the world go by and lay my ghosts to rest  
Give me a chance to catch my breath  
So I can lay my ghosts to rest  
All that I ever wanted was a chance to catch my breath  
All that I ever wanted was to lay my ghosts to rest  
All that I ever wanted was a chance to catch my breath  
All that I ever wanted was to lay my ghosts to rest
