Everyday

The Sunstreak

Everything you taught me
Well I thought I knew already
Nothing seems surprising
When your life is so unsteady
I try to make the right decisions,
Choices never ending
My head is spinning round and round
And everyones against me
But everytime I hear your voice,
I know that my heart made the right choice
When it chose youIt all comes down to this,
It happens when we kiss
And nothing matters more,
There's nothing more than this
I know we'll find our way,
No matter what they say
I can't do this alone
I need you everyday
All the crazy times
And all the messed up situations
Make us who we are today
And what we've had to deal with
I can take you by the hand
And be the one in your life
You will be the sun that melts
Away the darkness inside
But everytime I hear your voice,
I know that my heart made the right choice
