

Girls In Rock

Lovebugs

Kim gordon and kelly deal
Polly harvey made me feel real
Tina weymouth and wendy james
For kim wilde I was burning in flamesJuliana hatfield and liz phair
Courtney love made me colour my hair
Deborah harry and joan jett
Chrissie hynde made me light
My first cigaretteI'm talking 'bout girls in rock
The ones who rock around the clock
The ones who will ever stay young
In my head 'til I'm deadL7, the runaways
Veruca salt, remember those days
Justine frischman, babes in toyland
And patty smith made me form
My very first band
