Pilgrim (feat. Paul Brandt)

Fresh IE

Chorus

Only here a little while
Through the toils and many trials
I'm a pilgrim I'm a pilgrim
The way the life the living truth
Lord I find myself in you
I'm a pilgrim I'm a pilgrim (Ã—2)

I found myself on the steps with a king
Know my last breath oh death where is your sting with a blessing
Many drowes at the end of the road through The Wiles of deception
A cold world reflecting on all your direction
Heading for the light out of aggression
Aggressively professing my life newly sessions
A pilgrim my weapon
Building the kingdom to bring them from the chaos to the garden
To sing them a song in the proverb
I come in the water son and a daughter just come to the father and find your identity
Find your obscenities and line with eternity designed to overcome all our enemies
And pull down all those idols in our life
I just want to ride into the light
Only here for a moment
This journey with a pilgrim in a mic
Called out from the darkness to the light

Chorus

Only here a little while
Through the toils and many trials
I'm a pilgrim I'm a pilgrim
The way the life the living truth
Oh Lord I find myself in you
I'm a pilgrim I'm a pilgrim (Ã—2)

Many tears much pain many footprints in the street

Alot of lessons learned but I'm walking out my faith

I'm a pilgrim I'm a product of his grace
Wes designed for the trap but you them shackles that'll break
I'm a run away slave and I'm a spirit that's awake
Turn from the blindness of my ways
Im break created got me safe
To that secret place you see it flicked my attitude ripped my heart into a truth
From a state of ratchetness to a state of reality

Right of the humming bird to go to this is carrying a plea
Bring a message to the nations and to all communities
For all of you to see

A perfect medicine for the soul
Journey into this privileged path embedded into the stone
Let him into your home
A collision of the heart
Discovering the elements that got us out the dark
Providing us the spark quickening the inner man
To journey back to the garden we going back to the start

Chorus
Only here a little while
Through the toils and many trials
I'm a pilgrim I'm a pilgrim
The way the life the living truth
Lord I find myself in you
I'm a pilgrim I'm a pilgrim (Ã—2)
