

# Hot Stuff (Let's Dance) [Eddie's Anthem Edit]

## Craig David

[Intro:]

I don't know about you  
But if your feeling the groove  
You know what you gotta do  
It's got to be fire! [Chorus:]

Let's Dance

Get on the floor

No need to hold back  
Sexy thong, mini-skirt, stilletos

And shakin' all that

What you doin' to me

Girl I can't hold back

Some Hot Stuff

Is all that I need

So why we waitin'

Let's Dance [Verse 1:]

Hit the floor

Show me what you workin'

Sequins on your skirt

Insentuates all of your curves and

Girl you know I'm likin'

All the things your doin'

Specially when them other girls

Be checkin' out your moves and Girl I want in

The way you turnin' me on

I can't even begin

You so hot like you come

Straight out of the kitchen

When you dip it down low

Cuz we trippin'

Cuz now other guys be lookin'

At you cuz your so damn fine

Really blows my mind

Girl it's all about you

So what we gonna do [Chorus:] [Verse 2:]

On the floor

As I pull you close in

Hands all up my back

With my arms wrapped around your waist and

Temperature be risin'  
Beat straight hypnotizin'  
Ain't no time for talkin'  
Girl let's keep this whole thing movin' Know what I'm sayin'  
I been away bein' straight up misbehavin' Girl you makin' me hard what I'm feelin'  
Especially when you spin around  
all up on my (beep)  
I ain't even playin' (That's Right)  
So many things I wanna do (Tonight)  
You make we wanna go home with you (That's Right)  
So maybe playa like to think through  
But right now it's all about me and you so [Chorus: 2x] [Bridge:]  
The way that you move it's got me fiendin' for more  
Clear up the strobe it's getting down on the floor  
Send complete empty actions girl hope that so I do  
But it ain't about me no  
It's all about you Don't want this to stop so let the record just play  
Think the crowd wants the re-wind get it from the DJ  
Girl I wish that we didn't have our clothes on at all  
But before head to the door [Chorus: 2x]
