

These Things Will Keep Me Loving You

[Diana Ross](#)

Oh and I know these things will keep me loving you dear

Say it again

These things will keep me loving you dear A gentle touch upon my face, baby

A tender kiss and a warm embrace honey

Oh a few kind words spoken so sincere And I know and I know

These things will keep me loving you dear

Loving all these things will keep me loving you dear Give me your shoulder, so I can cry on it baby

Oh give me advice that I can rely on honey Oh say you love me every day of the year And I know and I know

These things will keep me loving you dear

Say it again

These things will keep me loving you dear Oh and I know these things will keep me loving you dear Oh baby,
baby

Call me each night on the telephone baby

Oh, send me a card when you're far from home honey

Oh hold me close to you baby every time you're near And I know and I know

These things will keep me loving you dear

Oh, loving you dear

These things will keep me loving you dear

These things will keep me loving you dear
