Fire

Guano Apes

You make light from dark, illuminate my heart It started with a spark and now I'm consumed I know that it's Your will, so I'm gonna shine until I'm a city on a hill and they can see You And know You And know You inside You set me, You lit me, I'm on fire What a beautiful sight to see, I'm on fire Until my light is burning bright I'm gonna lift Your name and let this flame get higher, fire Let Your fire feed on all my disbelief 'Cause You are all I need, You're contagious Like a blaze I can't contain, it never fades away It's sunshine through the rain, that's what Your love is And I know And I know inside You set me, You lit me, I'm on fire What a beautiful sight to see, I'm on fire Until my light is burning bright I'm gonna lift Your name and let this flame get higher, fire I wanna show 'em You're the only one Show 'em You're the only one You're the only reason why I'm on fire You set me, You lit me, I'm on fire What a beautiful sight to see, I'm on fire Until my light is burning bright I'm gonna lift Your name and let this flame get higher, fire You set me, You lit me, I'm on fire What a beautiful sight to see, I'm on fire Until my light is burning bright I'm gonna lift Your name and let this flame get higher, fire
