Closer To The Edge Of Pleasure

Bleib Modern

sick ways lead me to commence
waiting for years
to keep this moment
let this be forever
please let this be the end
my heart still hurts
but I'm close to the edge of pleasure
more than ever before

this emptiness surrounds me
and I'm glad
cause this feeling is at least
the best I ever had

now I'm moving to the sound
it's getting closer
all around
I'm already there, I'm already free
you say that it ain't fair
but I disagree
I'm now free

is this the next step to eternity
don't walk away
I'll never feel that much again
and nothing ever touched my heart
(as the death)

now I'm moving to the sound
it's getting closer
all around
I'm already there, I'm already free
you say that it ain't fair
I disagree
