

You Make It Easy

[unknown]

Gosh almighty baby

Yes, indeed

You supply the satisfy and I'll supply the need

I can't help the way I feel though I know just where it leads

You make it easy (yes, you do)

For a man to fall, for a man to fallHeaven knows I love my woman

Just bound to fuss and fight

Now I wind up on the barroom stool

Buying drinks and keeping tight

But you know I've never done

What's come in my mind tonight

You make it easy just sitting there looking good

For a man to fall, for a man to fallNow me and my wife

We've got the rest of our life

To make this thing right

But you and me will only see tonightSo baby, won't you turn me down and point me out the door

I'll head home and sleep it off just like every time before

You keep on lookin' good my way

I won't hold out anymore

You make it easy, you sure do make it easy, baby

For a man to fall, for a man to fallYou don't have to make it so easy, baby , no,no,no

For a man to fall

For a man to fall

For another wise good man to fall

You don't have to make it so easy, baby

For another wise good man to fall

You don't have to make it so easy, baby
