

# Lava Lamp

# Duran Duran

In the half light of the evening  
I can almost see you glow  
Can tell by the way you're moving  
Time may be right to let you knowYou got many colored halo  
The body of Venus, a babe rainbow  
And if I come on any closer  
I might fall into your silhouetteBut the shape of things  
To come is constantly changing  
So let it, so let it, so let it flowLa la la lava lamp  
La la la lava lampIndigo, violet and blue  
Can we meet where the edges blur?  
'Cause I am coming at you  
Like a bug eye heading for the burnTruth is, I can't stay away  
No, I wanna let you light my volcano  
And maybe it's just in my imagination  
But you never know'Cause the shape of things  
To come is constantly changing  
So let it, so let it, so let it flowLa la la lava lamp  
I'd love to turn you on  
La la la lava lamp  
I'd love to turn you onLa la la lava lamp  
I'd love to turn you on  
La la la lava lamp  
I'd love to turn you onSo let it, so let it  
So let it, so let itLa la la lava lamp  
I'd love to turn you on  
La la la lava lamp  
I'd love to turn you onLa la la lava lamp  
I'd love to turn you on  
La la la lava lamp  
I'd love to turn you on
