

Wildfire (Acoustic Version)

Timoteij

I'm by your side when the darkness falls
Shields upon your skin, armour on your shoulders
For what it's worth I am holding on
stronger than before
Leaving all my fear behind
I cross my heart and hope to die
this feeling burns inside
Runs like Wildfire
They can never keep us, uh
They can never keep us, uh
Wildfire
They can never keep us, uh
They can never keep us apart
Woahhhh
They can never keep us, uh
They can never keep us apart You pull me in like a thunderstorm
Wash away my doubts
Leaving all my fear to drown
I cross my heart and hope and die
This feeling burns inside
Runs like wildfire
They can never keep us, uh
They can never keep us, uh
Wildfire
They can never keep us, uh
They can never keep us apart
Woahhhh
They can never keep us, uh
They can never keep us apart I cross my heart and hope and die, die, die
This feeling burns inside
They can never keep us apart
I cross my heart and hope and die, die, die
This feeling burns inside
Runs like wildfire
They can never keep us, uh
They can never keep us apart
Wildfire
They can never keep us, uh
They can never keep us apart

Wildfire

They can never keep us, uh
They can never keep us apart
I cross my heart and hope to die
They can never keep us
They can never keep us apart

Woahhhh
