Timeless

Najwa

I usually think about space
And space usually thinks about time
Time never thinks into space
Into the timeTime in, time out
Time off, timeless
Time in, time out
Time off, timelessBuying time to keep time
Is it a good time
I'm on time
And the best time is before time
The meantime and aftertime
Lifetime for old times
From time to timeTime myself doing time
Dead time, no time
Time myself doing time
Dead time, no time(Time is in your hands
Time is in your hands)Time is, time was
It took me a long time to waste my time
Is it about time
I'm my own time
Time is in my handsIt took me a long time to waste my time
Is it a bad time
I'm on time
Time is in my hands
Time is in your hands(Time is in your hands
Time is in your hands
Time is in your hands
Time is in your hands)
