Crazy Love

Pepper

She loves the party, I can see
Her dress is worn perfectly
A speaker shuffle her dancing feet
My tongue trips me up when I speak
Now she's the type of girl that could only be trouble
Looking the part, right the start she hands me a green bottle
She asks me for the time, I reply 'No thanks, I'm fine'
Then she laughs and asks what I was thinking of
I want a part of your crazy love
It's really all I'm ever thinking of
I need a part of your crazy love
It's a crazy love, it's a crazy love
Not so hard to persuade
She gives a smile, puts it away
And that's enough for me to
Do what you want to do
Soft spoken hanging through the morning
Really don't pay attention to the breakfast she's burning

The food is on my plate, I lie and say 'It's great'
Then she smiles and asks what I was dreaming of
I want a part of your crazy love
It's really all I'm ever thinking of
I need a part of your crazy love
It's a crazy love, it's your crazy love
I'll finish the dishes put on some records if you know how
Makes the selection singing dread natty dread now
She threw me again and again extended don't let it in
This is exactly what I was thinking of, woah, yeah
I want a part of your crazy love
It's really all I'm ever thinking of
I need a part of your crazy love
It's your crazy love, it's your crazy love, whoa
I need a part of your crazy love
Now baby just give me, baby just give me
Your crazy love
