Generators

Deine Lakaien

When coldness surrounds you
In rooms without echo
And silence will remain
Your faithful shadow
And your eyes wander about
Fo warming support
Come and take my hand
I will understandI'm your ark, I'm your barque
Floating in slow motion
On a shaded green river
Into a timeless oceanDream world, dream time
It is yours it is mine
Exchange off-line
Generators we'll shine
We will shineAnd your heart knows too well
What is right and what is wrong
When ideals are returned
With laughter and scorn
When flattering bills on hooks
Take you to isolation
Come on take my hand
I know a better landI'm your ark, I'm your barque...
Floating in slow motion
On a shaded green river
Into a timeless oceanDream world dream time...
It is yours it is mine
Exchange off-line
Generators we'll shine
We will shineAnd you can't rely upon
The tenderness of old
Like a too light anchor
Searching for a hold
And you scream with all your soul
It is far too cold in here
Reach out for my hand
I do understandI'm your ark, I'm your barque...
Floating in slow motion
On a shaded green river
Into a timeless oceanDream world dream time...

It is yours it is mine
Exchange off-line
Generators we'll shine
We will shine
