You call me up at six, come 'round, undressing in my house again
Your t-shirt's on the floor, yeah we're undressing in my house again
You know just what I likeYou call me up at six, come 'round, undressing in my house again
Your t-shirt's on the floor, yeah we're undressing in my house again
You know just what I likeUsed to come around, you'd be knockin' on my front door
Playing board-games, horror films with the secret door
Thought that you were cute from the start, yeah I'm pretty sure
You were like the medicine, the medicine I wanted more
All along I wanted someone to ride with
Found the guy I want the rest of my life with
We on some husband and wife shit
I don't really care, 'cause I know that I like itAnd when the clouds part open
When the last word is spoken
When the last heart's been broken
We'll be sitting on your bedroom floor still smoking
And when the clouds part open
When the last word is spoken
When the last heart's been broken
We'll be sitting on your bedroom floor still smoking
Smoking, smokingYou call me up at six, come 'round, undressing in my house again
Your t-shirt's on the floor, yeah we're undressing in my house again
You know just what I likeYou call me up at six, come 'round, undressing in my house again
Your t-shirt's on the floor, yeah we're undressing in my house again
You know just what I likeOh now I got a plan, I hope you gonna be my man
I can see us cushy in the house right by the ocean sand
And when I'm one to cry, I hope you gonna hold my hand
And when they gonna shake us down, I hope you're gonna make a stand
This shit is super wild, this shit is super cool
This shit is kinda gangsta, I think I'm into you
This shit is super wild, this shit is super cool
This shit is kinda gangsta, I think I'm into youYou call me up at six, come 'round, undressing in my house again
Your t-shirt's on the floor, yeah we're undressing in my house again

You know just what I likeYou call me up at six, come 'round, undressing in my house again
Your t-shirt's on the floor, yeah we're undressing in my house again
You know just what I like
