## Cattle Decapitation

Estranged outcast  
Condemned to trash and leftover  
Slid off the plate into a vat  
Churned with milk and animal fat  
Nose, ears, lips, and eyelids  
Fuzzy strips of pigskin and cow-clits  
Made into the finest cheeses-throbbing  
And lined with diseases  
A sight worse than human jerky  
Poultry products turned to meat and pus compound  
Jellified pig parts smothered in succulent lard  
Rotten hors d'ourves for the gorging
