Electro Man

Calvin Harris

Electro man, Electronic man
Electro man, Electronic woman
Ive been outside wearing my device
I came back in wearing the same device, as you
Electro man, Electronic man
Electro man, Electronic woman
Ive been outside wearing my device
I came back in wearing the same device, as you
*Electro man, Electronic man
Electro man, Electronic woman
Ive been outside wearing my device
I came back in wearing the same device, as you*
You don't believe me, but I would go anywhere with you
I would go anywhere with you
Uh uh
I would go anywhere with you
I would go anywhere with you
You don't believe me, but I would go anywhere with you
I would go anywhere with you
Uh uh
I would go anywhere with you
I would go anywhere with you
Electro man, Electronic man
Electro man, Electronic woman
Ive been outside wearing my device
I came back in wearing the same device, as you
Electro man, Electronic man
Electro man, Electronic woman
Ive been outside wearing my device
I came back in wearing the same device, as you
