

# Demolition Alley

Saxon

I've been working all day down on demolition alley  
Looking down the barrel of a twelve gauge gun  
Digging up rocks in this god forsaken valley  
Breaking my back in the mid day sun I served my time I lost my mind (\*)  
On demolition alley Days go by but it feels like a lifetime  
Dragging me down like a ball and chain  
Doing my time just walking in a straight line  
It's the only thing I know just to handle my pain [Repeat \*]
