Enigma

Atrocity

I see the golden roofs shining in the sun
I see stoned circles built up by strong men
Can you imagine the 8th continent
Buried in the deep sea down below?Can you see the mighty kingdom of old times?
And the holy mountain rising up to the sky
For millenniums
We've been seeking for the truthEnigma like a secret kept inside
Enigma turning darkness into light
Where it was, where we're from
To where have all the things gone
Only time can tell, enigmaWords from different places meaning all the same
World's source of wisdom an island without name
Language and religion from the same origin
Lying in the deep sea down belowPillars of Heracles a gate to another world
Birds and eels still searching for their place of birth
For millenniums
A mysterious unknown landEnigma like a secret kept inside
Enigma turning darkness into light
Where it was, where we're from
To where have all the things gone
Only time can tellEnigma like a secret kept inside
Enigma turning darkness into light
Where it was, where we're from
To where have all the things gone
Only time can tellCarved in marble pillars
In the ancient Egypt
Legends in cryptic letters
By Mayas and the AztecsFor millenniums
Cultures give it different namesEnigma like a secret kept inside
Enigma turning darkness into light
Where it was, where we're from
To where have all the things gone
Only time can tellEnigma, enigma
Where it was, where we're from
To where have all the things gone
Only time can tell
Enigma

Songwriters

Martin Schmidt;Christian Lukhaup;Thorsten Bauer;Alexander Krull;Mathias RoedererPublished by HANSEATIC MUSIKVERLAG GMBH
