

# La vista de luna

Sandra

i know the name  
of a lonely place  
it's called: la vista de luna  
when you're a part  
of the island-life  
you feel so warm insideuh, heaven's child  
uh, here's what you findgive me another  
just another sign of love  
and i say: la vista de luna  
love is a brother  
under cover of the moon  
i'll show you  
it's really in my mind  
when your part is done  
even love could fade away  
if you got to leave  
just leave me on  
la vista de lunait's not the face  
of the moon tonight  
it's just la vista de luna  
and if you promise  
to hold me tight  
i feel so warm insideuh, all my life  
uh, i'll stay by your sidegive me another  
just another sign of love  
and i say: la vista de luna  
love is a brother  
under cover of the moon  
i'll show you  
it's really in my mind  
when your part is done  
even love could fade away  
if you got to leave  
just leave me on  
la vista de luna
