

The Battle of Stonehenge

Normil Hawaiians

Twelve long years ago
In a field on Salisbury Plain
Travellers found they came
To where a village began to grow
So for Eleven years
As the village grew and grew
Tranquility and peace
Reigned above the fears
It's 1985
And Festival becomes a Fayre
So the mystics of Stonehenge
Can live and worship there
But the government don't want
The people to be free
They're frightened of the truth
And we defy authority
So on the 1st of June
We came from far and wide
Met by riot police
But we've got chaos on our side
With battens drawn the police attacked
And scattered families
Smashing trucks and homes
Beating people to their knees
With 500 arrests
The police are satisfied
And the few that have escaped
Saw the wreckage there and cried
But the people will not give in
We'll return to Salisbury plain
To love and live in peace
At Stonehenge once again
