

What'cha Got 2 Lose?

Blake Lewis

Hot and sexy is the definition of her
So why she workin' with someone who doesn't value her worth?
Don't want to be the one, no
To come between, cause that's not my style
If it don't happen now it's just a matter of time Till she realizes what she needs
Let go and just release herself from love not worthy
Till she realizes what she needs
Let go and just release herself from love thats hurting What'cha got to lose
Not trying to be rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Don't waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me, yeah What'cha got to lose
What'cha, what'cha, what'cha, got to lose
What'cha got to lose
What'cha got to lose
What'cha, what'cha, what'cha, got to lose, to lose Allow this introduction girl the pleasure is mine
Contradicting myself now push your man to the side
Don't want to be the one to come between
Something's gotta give
Take my hand, that's the plan
I'm taking you from yo man Till she realizes what she needs
Let go and just release herself from love not worthy
Till she realizes what she needs
Let go and just release herself from love thats hurting What'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Don't waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me, yeah (Beatboxing)
What'cha got to lose
What'cha got to lose, my baby
What'cha got to lose
What'cha got to lose, my baby What'cha got
What'cha got to lose
She got a sexiness
Overflowing finesse

It is evident that she is my queen
One good look in her eyes has got me mesmerized
I want to give her everything that she needs Till she realizes what she needs
Let go and just release herself from love not worthy
Till she realizes what she needs
Let go and just release herself from love thats hurting What'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Don't waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me What'cha got to lose
Not trying to me rude, just telling it like I see
What do I got to do
To pull you away and get you alone with me
Don't waste your time with a man who just don't understand
What'cha got to lose
Break these chains and walk away with me, yeah
