Save Yourself (Re-Recorded)

Stabbing Westward

I know your life is empty
And you hate to face this world alone
So you're searching for an angel
Someone who can make you wholeI can not save you
I can't even save myself
So just save yourselfI know that you've been damaged
Your soul has suffered such abuse
But I am not your savior
I am just as fucked as youI can not save you
I can't even save myself
So just save yourselfPlease don't take pity on me
Please don't take pity on me
Please don't take pity on me
Please don't take pity on meMy life has been a nightmare
My soul is fractured to the bone
If I must be lonely
I think I'd rather be alone (I think I'd rather be alone)You can not save me
You can't even save yourselfI can not save you
I can't even save myself
Save yourself
So just save yourself
