NW Passage

Surfer Blood

[Verse 1]
We have crossed the ice
Passed the facade of paradise
Over the cold expanse below
You and I have room to grow[Chorus]
We have found
We have found
Now we have found
Our Northwest Passage
Now we have found
Our Northwest Passage[Verse 2]
Build it up then burn it away
The streets will wear and turn to clay
And I'll be there to see the day
You and I will grow, not decay[Chorus]
We have found
Our Northwest Passage
We have found
Our Northwest Passage
Now we have found
We have found[Verse 3]
Letting in storms full of worry, then my
My whole life was as dry as a desert
I took a spill and I tasted the mud
And I knew my own heart had deflated[Verse 4]
When we were right at the threshold
You showed me how to follow
You told me to learn but not hate
Forgive forget, oh oh
And when a fly landed on my plate
You reminded me not to notice
