

# When Its Good

## Nature of the Beast

[Wilson Pickett]

I'm in Love  
Yes I am  
Love, Love, Love  
sho 'nuff in love

[MarkmyWords]

Ey yo sometimes, life is too much, everyday's like a job now im grown up,  
but it's all love cause once I'm right here, I find the peace that I need and it's all cheers.  
Trade my Mondays for some sunshine, trade the mundane here for some summertime.

I wanna runaway  
but I ain't got the time  
I'd rather

---

- (?) and everything is just fine.

Yo it's like one rhyme can change my whole day  
like my sons smile

---

--(?),

little moments that I live for - music and my family

I slave 6 days for a dream to live happily.

Sittin' poolside settin' the plates.

Empty out the water so the homies can skate  
barbeque's overflowin with steak,

---

---

---

---

--(?) while the bboys break.

Real life, I ain't lettin it pass,

no more sick little misfit

grip to the train tracks.

just a fact, a plaque of life lessons,

no more stress but address the rough edges.

From here out we're just takin it slow.

Everyday's a holiday,

every night's a show.  
From 07' at the end of the road

---

--, blue skies; take me home.

[Chrous]

I'm in love

I wanna find out (we goin' far)(Yes I am) which way to find home (we goin' far)(Love, love love)

I wanna find out (we goin', we goin', we goin' far) which way to find home

I'm in love

I wanna find out (we goin' far)(Yes I am) which way to find home (We goin' far)

I wanna find out (Love, love, love)(we goin', we goin', we goin' far)(Sho 'nuff in love) which way to find home

[MarkmyWords]

They say it feels like home,

Cali unique, SD: that shit you gotta see to believe.

Steadily we detonate in everything green (?) and even

---

---

(?) as we set the scene

it's no problem, it's North County outreach,

---

--(?),

we got a beast to unleash (Haaaa!)

At all angles, no boundaries, strength in unions, while y'all are sound asleep.

That's how it sounds to me,

I mean you gotta wake up to achieve your dreams (am I right?)

Old side, Esco, it's time to crown the king, let's go don't sleep,

Or even blink cause if you miss more than a second of it y'all are gonna be dust on the record.

Ever since 760 and 619 before 858 was even the line,

we was doing this music with a beautiful mind,

like some lunatic story just look in my eyes.

Come a long way,

back then I was givin' them rides.

Now we sittin' in the fire,

just tryna survive.

And when the ash comes down we can kick it back up,

with stack of a wax in the back of the truck, like what

comin' to a town near you,

with a lil' North County from within you.

[Chrous]

I'm in love

I wanna find out (we goin' far)(Yes I am) which way to find home (we goin' far)(Love, love love)

I wanna find out (we goin', we goin', we goin' far) which way to find home

I'm in love

I wanna find out (we goin' far)(Yes I am) which way to find home (We goin' far)

I wanna find out (Love, love, love)(we goin', we goin', we goin' far)(Sho 'nuff in love) which way to find home

[Wilson Pickett's "I'm In Love" w/ turntable variations till fade]

---
